

Team Leader: \_\_\_\_\_ Instructor: \_\_\_\_\_ Date: \_\_\_\_\_

<b>Instructor Information:</b>	<b>Patient Information:</b>
This skill station involves a 19-year-old male who was involved in a fight and received a knife wound to the neck. The patient requires basic and advanced airway management. Follow the written scenario and provide information to all team members as the scenario progresses or as the team members ask.	<p>Moulage: Bruised face, stab wound with swelling right neck, skin pale and diaphoretic</p> <p>Position: Confused, difficulty breathing, stridorous breaths at 26 to 30</p> <p>Actions: Sitting upright, leaning forward, holding right hand over neck wound</p>

**Dispatch Information:**

You and your partners are working for a transporting ambulance service in a large college town. Your service has been dispatched to the college football stadium parking lot for a victim of a fight who was reportedly stabbed. It is 1930 hours on a fall Saturday. Outside temperature is 54°F (12°C). From the scene, you will be 30 minutes away from a Level II trauma center and 50 minutes from a Level I trauma center.

**Scene Assessment / Initial Observations:**

Clear fall evening following an intrastate rival football game, campus security and city law enforcement on scene in a parking lot next to the stadium, multiple beer cans strewn about. Multiple law enforcement and college-age fans, many of whom appear intoxicated.

<b>Primary Assessment:</b>	<b>Treatments / Critical Actions:</b> *Note: Icon indicates a Critical Action.
<input type="checkbox"/> A: Stridor	<input type="checkbox"/> Identify safe scene
<input type="checkbox"/> B: Equal bilateral sounds, labored, rapid and shallow	<input type="checkbox"/> Assist ventilations with high-flow oxygen and bag-mask, recognize the need for advanced airway
<input type="checkbox"/> C: No active external hemorrhage, rapid, and strong pulse	<input type="checkbox"/> Possible endotracheal intubation, and possibly with pharmacological assist
<input type="checkbox"/> D: Conscious, some confusion	<input type="checkbox"/> Rapid transport
<input type="checkbox"/> E: N/A	<input type="checkbox"/> Consider IV en route, TKO rate
